

LD 8021

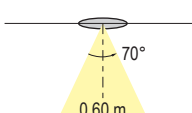

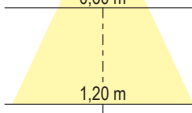

THE CLASSIC MODEL WITH MODERN LED TECHNOLOGY

The LD 8021 replaces existing T5 fluorescent tubes with modern LED technology, combining a proven design with contemporary efficiency. The aluminum housing with a satin-finished diffuser ensures uniform light distribution and a soft, glare-free illumination. Thanks to its direct 230 V connection, the luminaire is particularly suitable for applications in furniture and interior design where straightforward integration is required. Various light colors allow for adaptation to different usage scenarios—from functional task lighting to clear area illumination. A reliable solution for both retrofits and new construction.

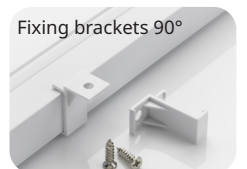

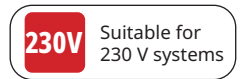

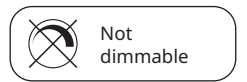

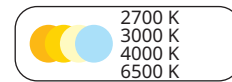

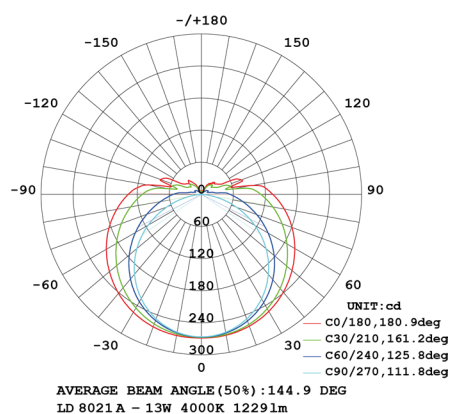

PRODUCT FEATURES

Operating voltage	220-240 V
Housing	Aluminum
Diffuser	Opal white
Power	See chart
LED type	SMD
Light colour	See chart
Luminous flux	80 lm/W
Lux in 600mm	See chart
CRI	>80
Dimmable	No
Connection cable	Order separately
Connection system	Mini Connection system
Mounting	Screw mounting with retaining clips
Protection	IP 20
Protection class	II
